Catifornia Neciar is the pure unsert section of the grape (blended varieties), and is a most refreshing and nutritions drink; highly beneficial to persons who suffer from lack of vitality, or from any wasting disease. It short it is a natural food, imparting strength and vigor, and the low price at which it is furnished makes it simest as cheap as bread.

We have been experimenting in the manipulation of this meritorious article for several pears, and are now prepared to furnish a very superior quality, and one that will meet the wants of our customers. And to distinguish between this and the many inferior and unsplatable samples produced by the boiling together of stems, seeds, strins, dirt, bage and juice, and offered under the general name of "unfermented wine;" we have adopted the name California Necias, and all stock sold by us will be so labeled
